

Report from RACC-organisation (CB-meeting in Madrid 2014-02-08/09)

1. Rule Group

So far very few questions about the new rule book valid from 01.07.2014 have been asked to office/RG-members.

Seminar/Information about the new rule book (including questions about other things in the book to) was canceled due to that no participants came to the meeting.

2. RACC-organisation

The jury schedule for tournaments January to June is set to 90% and work will continue as soon as we have the autumn set with organisers.

License system:

The Association shall organise a proper national championship, with proper adjacent competition services, such as coaching courses, refereeing and a working administration.

We are working on how to evaluate the member countries to fulfil the above.

RACC will have a meeting in May/June
