

30 April 2016

Appendix 5a

To: International Floorball Federation (IFF) Central Board

Dear IFF CB,

We are in receipt of your letter dated March 22, on the debts situation towards SFA. We acknowledge the total outstanding amount of 29.000 CHF. For your information the investments made from our side in the last SEA Games were both from a financial as from a manpower side huge for our standards. We also feel as the IFF CB that all members must be treated equally, and hence have the same rights and obligations on the international floorball level. Having stated this, we fully agree with you that concerning the amounts of 3000 CHF (annual fee 2016), and 5000 CHF (WFC fee 2016) these will be settled as stated by IFF on April 30.

On the rest we are of the opinion that these debts must be put in the perspective that some are from the WFC 2005 where for example some air fares were invoiced us after the event, by other associations through IFF, and not fully in our position to neither plan nor to cover. We acknowledge that parts of these are already deducted, but still partly not settled. We do not feel that these are valid towards us (2000 CHF). On the remaining part, 19 000 CHF, may we suggest that the road towards upcoming SEA Games 17 and 19, and towards Asia Indoor Martial Arts Games, a joint plan be set where we would act together with IFF and AOFC as means to enhance and speed up that process, as we did at the very first SEA Games 2013 in Myanmar, by shipping the rink from Singapore to Myanmar, and having brought voluntary staff as technical offers, and dispatching referees, and acting as LOC as that was not done by Myanmar LOC. We also read that IFF have plans, which we must say sounds very fruitful, to invest in part time as we understand it regional development officers, and hence SFA would gladly enroll for that.

If IFF can agree to the way we propose to handle the latter part, 19000 CHF, regardless of amounts, we suggest one third 6000, and the remaining, 13000 CHF, we propose that starting from May 2016 the remaining debts would be settled in one year, paid by the end of each quarter.

Again apologizes in delay and not being able to stick to the original plans settled. We look forward to further discussions and to find a solution that both parties can agree upon, that enhances the development in AOFC region.

Looking forwards to your response, with kind regards,

Sani Mohammed bin Salim
SFA President
