9th October 2016

To the General Secretary
International Floorball Federation

Dear Sir;

RE: NOMINATIONS, MOTIONS AND PROPOSALS TO IFF GENERAL ASSEMBLY.

Reference is attached to your letter dated 05.09.2016 that sought for our nominations, motions and proposals to IFF General Assembly.

Below are the proposals that we have thought good for Africa and the Floorball fraternity at large.

1. That continents be divided into five zone of countries with in the same locality like for example (Egypt, Sudan, South Sudan, Kenya, Tanzania, Rwanda, Burundi, Somalia, Ethiopia and Eritrea) to form one zone with its leadership where by each zone can have its championship and there after the best two countries from each zone to go for the continental championship. ***This saves countries costs of traveling long distances. It as well helps for seminar training opportunities for the zones because each zone will have an opportunity for the seminar among other benefits.***
2. Twining of nations. This is yet another opportunity where countries will benefit from the expertise and knowledge from other Floorball developed team nations, the likes of Sweden, Finland among others. For example ***if Finland is twined with Kenya, then the two nations can work out an exchange program of trainers and players to help in Floorball skills training and others benefits that may come along like Floorball sticks supply.***
3. Plan for a zonal fund to run the zonal activities.

We thank you for your consideration and looking for to the best of results from the assembly.

Yours in Floorball;

JOHN VIANNEY MUKALAZI
GENERAL SECRETARY
UGANDA FLOORBALL ASSOCIATION
