Mr. Russo Mendoza has been very active and has started a contact roll call with a group of people working in different countries. To this mail list we have been adding more contacts who wrote me before that.

Actions - sent application to IFF

They are running some floorball schools in the country. Personally do not know who is working there, Mr. Russo-Mendoza lives in Switzerland.

Apparently he has very close contacts with high personalities in the Government.

He is leading the actions and trying to form a latin America Confederation. In my opinion this is too early (just Brazil is registered as a country in IFF).
