

## LATIN AMERICA REPORT October 2018

---

After last CB Meeting I got in contact with the whole group again and tried to get more and updated information specially about the situation in the no-registered countries. We can add now a new emerging country with a very good and impressive work lead by Swiss collaboration: Ecuador.

Also added a “preview” of who will come to Prague for the assembly and be able to prepare a meeting with all there.

- **Colombia - Jose Fernando Gómez**

Growing up but still only a registered Club. The one in Bucaramanga mi ciudad, pero seguimos avanzando en la promoción del deporte en t, but continuing promotions in three regions: La Guajira, North of Santander and Bogotá: There is a group of Swedish playing on Saturdays in Bogotá. They work with the Swedish Embassy in Colombia and they will probably get involved in some projects with the locals.

The number of players is around 500 with 30 certified coaches by Unihockey fur Strassekinder, this is the organization that provides floorball stuff to all of them.

Working in the city of Quito in parks and schools promoting floorball, in Esmeraldas and Cayambe working with low level social groups and bringing the sport to them.

Working in how to get recognition as a Federation.

Needs: there are lots of ways to help them; documents, videos for coaches and referees..., guiding lines on how to approach to the authorities to get the recognition and also creating a plan of development and projects.
