b. Clarification of age U19

c. Change of playing system U19

Handled in other topics during the meeting

3) U19 questioner – Future of floorball

a. New questionnaire

We need to do a new questionnaire regarding U19 due to the fact that answers is very inconsistency. Reasons for that is in almost every case the same – ‘finals in school’. To solve that RACC thinks that we should also put in the question of changing the age to U18.

RACC proposes to do a new questionnaire regarding when U19 should be played and also ask the question of U18.

4) Other

a. How to get more organisers

RACC had a work shop during the meeting in Prague regarding how to get more organisers and also how conditions could be changed to give a better chance of not having a deficit when organising a tournament.

b. Video checking goal

RACC have continued the work with using the IFF YouTube livestream for reviewing goals at WFCQs in Switzerland. We have done some changes regarding how to show goal/no goal and information from speaker.

The plan is to have a regulation change proposal for the CB-meeting in December.
