To Mr. Thomas ERIKSON  
President of  
International Floorball Federation

Dear Sir,

It is our great pleasure to inform you that <JAPAN FLOORBALL FEDERATION> was newly established here in Japan on April 28, 2012

It is true popularization of floorball in Japan has been eagerly expected but it was not so successful due to several reasons. Unfortunately, floorball players' organization in Japan was long time divided in 3 different associations and this situation constituted a serious obstacle for promotion of this sport in this country.

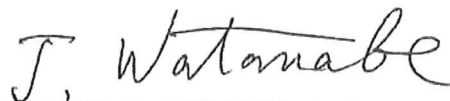

Therefore, it has been our keen wishes to integrate those fragmented organizations into one single National base association for further development of Floorball here in Japan.

After many twists and turns, we have now reached the stage to unify those 3 organizations and a new national base <JAPAN FLOORBALL FEDERATION> has been established for the first time in Japan.

We have just started one big step for the future and wish to develop and keep long-term stability and create new history of floorball in Japan as we believe we have a huge potential for growth

We would like to express our special thanks for your patronage and continuous support for our newly-borne organization.

Yours Sincerely,

---

Tsutomu Watanabe
