

Dear Floorball friends

Swedish Floorball Federation (SFF) feels obliged to bring up a couple of other subjects for discussion, that we feel necessary for the future development for Floorball for all parties concerned.

U19 age

SFF has understood that it will be a new discussion about the age for players in U19 teams.

SFF thinks that players should be allowed to be five months over aged.

Players that are under the age of 19 when the season starts should be allowed to participate even though they become 19 during the time between 1st January and the ending of World Championships in May.

Qualification for U19

SFF notes that the new qualification system for U19 is similar to the qualification system for the senior World Championship.

SFF do not recommend the same system for U19 as for seniors. SFF believes that it would result in double qualifications and play offs for all national teams concerned that register, a financial burden to all and more organizers for IFF as well.

Best regards

Magnus Nilsson
Head of national teams

Martin Wolmhed
Head of SFF Competition Committee

Christer Johansson, head of administration, by direction
