Referees' preparation and development at the WFC 2008

The IFF RC would like to gather the best referees already two days before the start of the World Championship 08 in Prag (instead of one). The reasons are: to find a mutual refereeing level in the equal applying of the rules and an equal interpretation as well as basics for development.

An early gathering gives the RC the possibility to add new criteria's, such as physical tests, working out of a profile to help the referees to be better.

These referees are among the best we have in the Floorball world, so the RC want also to increase their commitment for the international Floorball community such as helping and guiding other referees, both on and off court being "head referees" in tournaments.

This is more and more important since the number of friendly Internationals is increasing and the need to develop more referees, being able to referee on a top level is vital for the Floorball development.

Schedule		Calculated additional costs	
Day 1		Hotel (referees 16 x 1 night, Observers 5 x 1 night)	=CHF 2,500
Arrivals		Meals (21 x 3 meals)	=CHF 3,500
