Central Board of
The International Floorball Federation

Dear Sirs,

In the letter from 28th of August 2009 the Czech Floorball Union expressed its interest to organize World Floorball Championships for Women 2013. In the same letter CFbU asked for the discussion with the International Floorball Federation prior the decision regarding the organizer of the WFC 2013.

The system of financing of the different Czech sports federations is built on finances which come from the main lottery company Sazka. Sazka is owned by the Czech Sports Federation which divides finances between sports federation. Because of economical situation of the lottery company, the support almost stopped in 2009. For the CFbU this support used to be source of 30-40% of the total budget.

Due to above mentioned economical situation and also because of discussions held in the Czech TV regarding WFC 2013, we would like to ask IFF CB to postpone the decision regarding the organizer of WFC 2013 until CB session in May 2013.

We hope situation will be clearer in few months and CFbU will be in a situation which allows confirming the possibility to satisfy all requirements to organize WFC 2013 and CFbU will confirm its interest to organize WFC 2013.

On behalf of the Czech Floorball Union

Tomas Frank
International Secretary of
the Czech Floorball Union
