Kiev, Ukraine  
13 September 2011

To:  
Central Board of IFF and  
Secretary General of IFF  
John Liljelund

**Dear Central Board**

All Ukrainian Floorball Federation (VFF) was founded in 2009 and have been developing floorball in Ukraine for the past 3 years. Our members include a collection of several regional federations and a dozens of clubs, teams and partner organizations. Open National Championships have been organized for the past 2 years and so has also many tournaments the most notable is Ukrainian Open. During this time we have also arranged seminars and trainings for referees and coaches and organizers.

We have also initiated a process to bring all the different floorball organizations in Ukraine together under one umbrella regardless of past grievances. We managed to find a constructive dialog with most of the floorball movement in Ukraine. However this does not include previous IFF member, the Floorball Union of Ukraine headed by Mr. Oleksander Bakanychev. We condemn his actions in strongest terms as you can see in the attached document from the meeting of independent floorball groups in Ukraine on the 20<sup>th</sup> of April 2011.

We apply for membership to start a new chapter between Ukrainian floorball community and the the International Floorball Federation. We take full responsibility to clear the issues that the previous member association had with the IFF. We also take responsibility to fulfill our obligation as a national federation and to be an open, transparent and democratic structure.

**Artur Kamarytsa**  
**President**  
**All Ukrainian Floorball Federation**
